## Ipaid Garageband Record Line In

Featured topic:be Drummer Loops in GarageBand for Mac. Jun 29, 2013 GarageBand automatically detects if there is an input device plugged into the headphone jack. Update: You can now read our hands-on review of GarageBand for iPad for a detailed overview. Just use the iPhone earbuds (the one with the microphone), plug it in and you record through that mic instead of the built-in. The Input Settings popup window (the one with the plug icon) will change accordingly.

Since the introduction of the iPad in 2010, I have dreamed of the day when I could walk into a studio and record, produce, and mix a live band using just my tablet. Get four sound packs from the Sound Library, build grooves with the Beat Sequencer, share and store songs and audio files with the Files app, and more.
